

# TABLE OF CONTENTS

	<u>PAGE</u>
<b>Preface (Excerpted from First Edition)</b>	<b>xi</b>
<b>Preface to the Third Edition</b>	<b>xiii</b>
<b>Chapter 1. Keys to Success in Engineering Study</b>	<b>1</b>
Introduction	1
1.1 You Can Do It!	2
Poorly Prepared Students Have Succeeded	3
Highly Qualified Students Have Failed	3
What Makes the Difference?	4
1.2 What is "Success"?	5
Goal Setting	6
Strengthening Your Commitment	9
1.3 Keys to Success in Engineering Study	13
Effort - "Work Hard"	13
Approach – "Work Smart"	16
Attitude - "Think Positively"	17
1.4 Models for Viewing Your Education	18
Attributes Model	19
Employment Model	21
Student Involvement Model	22
1.5 Structure Your Life Situation	23
Living Arrangements	24
Part-Time Work	25
Influence of Family and Friends	26
Summary	27
References	28
Problems	29
<b>Chapter 2. The Engineering Profession</b>	<b>34</b>
Introduction	34
2.1 What Is Engineering?	35
Learning More about Engineering	36

	<u>PAGE</u>
2.2 The Engineering Process	37
Your Alarm Clock Is an Example	38
The Engineering Design Process	38
2.3 Case Study: Solar-Powered Electric Vehicle	39
Customer Need or Opportunity	40
Problem Definition and Specifications	40
Data and Information Collection	41
Development of Alternative Designs	41
Evaluation of Designs and Selection of Optimal Design	42
Implementation of Optimal Design	44
Nuna 3 Team Wins 2005 World Solar Challenge	44
The Needs for Engineering Design Are Boundless	45
2.4 Greatest Engineering Achievements of the 20 <sup>th</sup> Century	46
2.5 Rewards and Opportunities of an Engineering Career	48
1. Job Satisfaction	49
2. Varied Opportunities	50
3. Challenging Work	53
4. Intellectual Development	53
5. Social Impact	54
6. Financial Security	55
7. Prestige	56
8. Professional Environment	58
9. Understanding How Things Work	59
10. Creative Thinking	59
2.6 Engineering Disciplines	61
Electrical Engineering	63
Mechanical Engineering	66
Civil Engineering	69
Computer Engineering	71
Chemical Engineering	76
Industrial Engineering	77
Overview of Other Engineering Disciplines	79
2.7 Engineering Job Functions	84
Analysis	84
Design	84

	<b><u>PAGE</u></b>
Test	84
Development	85
Sales	85
Research	86
Management	86
Consulting	86
Teaching	87
2.8 Employment Opportunities	88
Organization of Industry in the United States	89
Manufacturing Subsectors	93
Service Sectors	94
2.9 Important Fields for the Future	96
Manufacturing Frontiers	98
Information and Communication Systems	98
Smart and Engineered Materials	98
Bioengineering	99
Civil Infrastructure Systems	99
Homeland Security	99
Improved Health Care Delivery	100
Nanotechnology	100
Advanced Environmental Technologies	100
Sensors and Control Systems	101
2.10 Engineering as a Profession	101
Professional Registration	102
Professional Societies	104
Summary	105
References	106
Problems	108
<b>Chapter 3. The Teaching/Learning Process</b>	<b>114</b>
Introduction	114
3.1 What is Learning?	115
Cognitive Learning	115
Psychomotor Learning	117
Affective Learning	117

	<u>PAGE</u>
3.2 How Do We Learn?	118
Receiving New Knowledge	118
Processing New Knowledge	119
Index of Learning Styles Questionnaire	119
3.3 Metacognition – Improving Your Learning Process	120
3.4 Learning is a Reinforcement Process	122
3.5 Understanding the Teaching Part	124
Teaching Styles	125
3.6 Mistakes Students Make	129
3.7 Don't Be Hung Up on the Idea of Seeking Help	131
3.8 Academic Success Skills Survey	132
Summary	133
References	133
Problems	134
Academic Success Skills Survey	138
<b>Chapt 4. Making the Most of How You Are Taught</b>	<b>141</b>
Introduction	141
4.1 Early Course Preparation	142
Using the Course Syllabus	143
Acquiring Textbook and Other Materials	144
4.2 Preparing for Lectures	144
4.3 During Your Lectures	145
Sit Near the Front	145
"Be Here Now"	146
Listening Skills	146
Note-Taking	147
Asking Questions in Class	149
4.4 Making Effective Use of Your Professors	151
Important Roles for Your Professors	152
Take Responsibility for Winning Over Your Professors	153
Understanding What Your Professors Do	158
Communicating with Professors by E-Mail	159

	<b><u>PAGE</u></b>
4.5 Utilizing Tutors and Other Academic Resources	160
Tutoring	161
Recitations/Problem Solving Sessions	161
Other Important Academic Resources	161
Summary	162
References	163
Problems	163
<b>Chapt 5. Making the Learning Process Work for You</b>	<b>167</b>
Introduction	167
5.1 Skills for Learning	168
Reading for Comprehension	168
Problem Solving	172
5.2 Organizing Your Learning Process	174
"Take It As It Comes"	175
Procrastination	175
Mastering the Material	177
Learn to Manage Your Time	180
Priority Management	184
5.3 Preparing For and Taking Tests	186
Preparing for Tests	187
Test-taking Strategies	188
5.4 Making Effective Use of Your Peers	188
Overview of Collaborative Learning	189
Benefits of Group Study	191
Frequently Asked Questions	193
New Paradigm	195
Summary	196
References	197
Problems	198
Weekly Schedule Form	200

	<u>PAGE</u>
<b>Chapter 6. Personal Growth and Development</b>	<b>201</b>
Introduction	201
6.1 Personal Development—Receptiveness to Change	202
Total Quality Management	203
"Personal" Total Quality Management	203
Student Development	204
Value Judgments on Our Actions, Thoughts, Feelings	205
Therapy and Counseling as Change Agents	208
Behavior Modification as a Process for Change	209
6.2 Making Behavior Modification Work for You	210
Step 1. Knowledge—"You Know What to Do"	210
Step 2. Commitment—"You Want to Do It"	213
Step 3. Implementation—"You Do It"	214
Barriers to Implementing Productive Actions	215
6.3 Understanding Yourself	216
Maslow's Hierarchy of Needs	217
Satisfying Your Need for Self-Esteem	220
Myers-Briggs Type Indicator (MBTI)	223
6.4 Understanding Others/Respecting Differences	226
Differences in Learning Styles and Personality Types	226
Ethnic and Gender Differences	227
Stereotyping Is Unnecessary and Unfair	229
Your Effectiveness in Cross-Cultural Communications	230
6.5 Assessment of Your Strengths and Weaknesses	231
Assessment Based on Attributes Model	231
Assessment Based on Employment Model	232
Assessment Based on Student Involvement Model	232
How to Do a Personal Assessment	233
Personal Development Plan	233
6.6 Developing Your Communication Skills	234
The Importance of Communication Skills	234
The Engineering "Discourse"	236
Employers Want More	237
The Engineering Student as Communicator: A Profile	237
Developing a Positive Attitude	238
A Plan to Improve Your Communication Skills	239

---

	<b><u>PAGE</u></b>
6.7 Mental and Physical Wellness	241
Tips for Good Health	241
Balancing Work and Play	242
Managing Stress	242
6.8 Motivating Yourself	244
<i>"No Deposit, No Return"</i>	246
Jesse Jackson <i>"Excel"</i> Message	247
Power of Positive Thinking	247
Summary	249
References	250
Problems	252
<b>Chapter 7. Broadening Your Education</b>	<b>257</b>
Introduction	257
7.1 Participation in Student Organizations	258
Engineering Student Organizations	259
Benefits of Participation in Student Organizations	262
Participation in Other Extracurricular Activities	264
7.2 Participation in Engineering Projects	264
Student Design Competitions	265
Technical Paper Contests	269
Design Clinics	269
Undergraduate Research	270
7.3 Pre-Professional Employment	271
Benefits of Pre-Professional Employment	271
Types of Pre-Professional Employment	272
How Do You Measure Up?	275
Preparing Yourself for a Job Search	276
Identifying Employment Opportunities	279
Applying for Positions	283
Following Up on Interviews	285
6.4 Putting Something Back	285
Providing Feedback	287
Serving as an Ambassador	287
Helping Other Students	288

	<b><u>PAGE</u></b>
Summary	289
References	290
Problems	290
<b>Chapter 8. Orientation to Engineering Education</b>	<b>295</b>
Introduction	295
8.1 Organization of Engineering Education	296
Overview of Engineering Education in the U.S.	296
Organization of the Engineering Unit	297
Position of the Engineering Unit in the University	297
8.2 Community College Role in Engineering Education	298
Engineering Technology	299
Articulation and Course Selection	300
Advantages of Starting at a Community College	300
Applicability of This Book to CC Students	301
8.3 The Engineering Education System	302
Criterion 1 - Students	302
Criterion 2 - Program Educational Objectives	303
Criterion 3 - Program Outcomes and Assessment	303
Criterion 4 - Professional Component	304
Criterion 5 - Faculty	305
Criterion 6 - Facilities	305
Criterion 7 - Institutional Support/Resources	306
Criterion 8 - Program Criteria	306
Conclusion	306
8.4 Academic Advising	307
Quality of Advising Can Be a Problem	308
Take Personal Responsibility for Getting Advising	308
8.5 Academic Regulations	310
Academic Performance	311
Recognition for Academic Performance	313
Enrollment Policies	314
Student Rights	317

---

	<b><u>PAGE</u></b>
8.6 Student Conduct and Ethics	319
Academic Dishonesty	321
8.7 Graduate Study in Engineering	324
Benefits of Graduate Study in Engineering	324
M.S. Degree in Engineering	324
Ph.D. Degree in Engineering	325
Full-Time or Part-Time?	325
How Will You Support Yourself?	326
8.8 Engineering Study as Preparation for Other Careers	326
Master of Business Administration (MBA)	326
Law	328
Medicine	329
Summary	330
References	331
Problems	332
<b>Appendices</b>	
Appendix A – 21 Definitions of Engineering	335
Appendix B – Greatest Engineering Achievements	338
Appendix C – Engineers Among World’s Wealthiest	342
<b>Index</b>	<b>345</b>
