

# TABLE OF CONTENTS

<b>Preface</b>	<b>ix</b>
<b>Prologue. What This Book Has to Offer and How to Get It</b>	<b>1</b>
Potential for Making a Difference	1
How to Realize the Maximum Potential from this Book	3
Additional Ways to Get the Most from this Book	4
Student Testimonial	5
Reference	7
<b>Chapter 1. Keys to Success in Engineering Study</b>	<b>8</b>
Introduction	8
1.1 You Can Do It!	9
Poorly Prepared Students Have Succeeded	9
Highly Qualified Students Have Failed	9
What Makes the Difference?	10
1.2 What is “Success”?	11
Goal Setting	12
Strengthening Your Commitment	14
1.3 Keys to Success in Engineering Study	18
Effort – “Work Hard”	18
Approach – “Work Smart”	21
Attitude – “Think Positively”	22
Summary of the Success Process	23
1.4 Models for Viewing Your Education	23
Attributes Model	24
Employment Model	25
Student Involvement Model	26
1.5 Structure Your Life Situation	27
Living Arrangements	28
Part-Time Work	28
Influence of Family and Friends	29
Summary	30
References	31
Problems	32
<b>Chapter 2. The Engineering Profession</b>	<b>35</b>
Introduction	35
2.1 What Is Engineering?	36
Learning More about Engineering	36
2.2 The Engineering Design Process	37

Your Alarm Clock Is an Example	38
The Engineering Design Process	38
How Things Work – <i>Reverse Engineering</i>	39
2.3 Case Study: Human-Powered Helicopter	41
Step 1 - Customer Need or Business Opportunity	41
Step 2 - Problem Definition/Specifications and Constraints	42
Step 3 - Data and Information Collection	42
Step 4 - Development of Alternative Designs	43
Step 5 - Evaluation of Designs/Selection of Optimal Design	43
Step 6 - Implementation of Optimal Design	45
Step 7 - Test and Evaluation of Gamera I	45
Step 8 – Redesign	46
The Needs for Engineering Design Are Boundless	47
2.4 Rewards and Opportunities of an Engineering Career	48
Job Satisfaction – An Overarching Issues	48
1. Varied Opportunities	50
2. Challenging Work	52
3. Intellectual Development	52
4. Social Impact	53
5. Financial Security	54
6. Prestige	55
7. Professional Work Environment	56
8. Understanding How Things Work	57
9. Creative Thinking	58
10. Self-Esteem	59
2.5 Engineering Past - Greatest Engineering Achievements of the 20 <sup>th</sup> Century	60
2.6 Engineering Disciplines	61
2.7 Engineering Job Functions	63
Analysis	63
Design	63
Test	63
Development	64
Sales	64
Research	64
Management	65
Consulting	65
Teaching	66
Entrepreneur	66
2.8 Employment Opportunities	67
Organization of Industry in the United States	68
Manufacturing Subsectors	70
Service Sectors	71
2.9 Important Fields for the Future	72

Future Directions – <i>Grand Challenges for Engineering</i>	74
Sustainability	77
2.10 Engineering as a Profession	78
Professional Registration	79
Professional Societies	81
Summary	82
References	83
Problems	84
<b>Chapter 3. Understanding the Teaching/Learning Process</b>	<b>89</b>
Introduction	89
3.1 What is Learning?	90
Cognitive Learning	90
Psychomotor Learning	91
Affective Learning	91
3.2 How Do We Learn?	92
Receiving New Knowledge	92
Processing New Knowledge	93
Index of Learning Styles Questionnaire	94
3.3 Metacognition – The Key to Improving Your Learning Process	95
3.4 Learning is a Reinforcement Process	96
3.5 Understanding the Teaching Part of the Teaching/Learning Process	98
Teaching Styles	99
3.6 Mistakes Students Make	102
3.7 Don't Be Hung Up on the Idea of Seeking Help	103
3.8 Academic Success Skills Survey	105
Summary	105
References	105
Problems	106
Academic Success Skills Survey	109
<b>Chapter 4. Making the Most of How You Are Taught</b>	<b>111</b>
Introduction	111
4.1 Early Course Preparation	111
Acquiring Textbook and Other Materials	112
Using the Course Syllabus	113
4.2 Preparing for Lectures	114
4.3 During Your Lectures	114
Sit Near the Front	115

"Be Here Now"	115
Listening Skills	115
Note-Taking	116
Asking Questions in Class	119
4.4 Making Effective Use of Your Professors	120
Important Roles for Your Professors	120
Take Responsibility for Winning Over Your Professors	122
Understanding What Your Professors Do	126
Communicating with Professors by E-Mail and Text Messaging	126
4.5 Utilizing Tutors and Other Academic Resources	128
Tutoring	128
Recitations/Problem Solving Sessions	128
Other Important Academic Resources	129
Summary	129
References	130
Problems	130
<b>Chapter 5. Making the Learning Process Work for You</b>	<b>133</b>
Introduction	133
5.1 Skills for Learning	133
Reading for Comprehension	133
Problem Solving	136
5.2 Organizing Your Learning Process	139
"Take It As It Comes"	139
Procrastination	140
Mastering the Material	141
Learn to Manage Your Time	143
Priority Management	148
5.3 Preparing For and Taking Tests	149
Preparing for Tests	149
Test-taking Strategies	150
5.4 Making Effective Use of Your Peers	151
Overview of Collaborative Learning	151
Benefits of Group Study	153
Frequently Asked Questions About Collaborative Learning	154
New Paradigm	156
Summary	157
References	157
Problems	158

Weekly Schedule Form	160
<b>Chapter 6. Personal Growth and Student Development</b>	<b>161</b>
Introduction	161
6.1 Personal Development—Receptiveness to Change	162
Total Quality Management	162
“Personal” Total Quality Management	163
Student Development	163
Value Judgments Applied to Our Actions, Thoughts, and Feelings	164
Therapy and Counseling as Change Agents	166
Behavior Modification as a Process for Change	167
Student Success Model	168
6.2 Making Behavior Modification Work for You	169
Step 1. Knowledge—“You Know What to Do”	169
Step 2. Commitment—“You Want to Do It”	170
Step 3. Implementation—“You Do It”	172
Barriers to Implementing Productive Actions	172
6.3 Understanding Yourself	174
Maslow's Hierarchy of Needs	175
Satisfying Your Need for Self-Esteem	176
Myers-Briggs Type Indicator (MBTI)	179
6.4 Understanding Others/Respecting Differences	181
Differences in Learning Styles and Personality Types	181
Ethnic and Gender Differences	181
Stereotyping Is Unnecessary and Unfair	183
Your Effectiveness in Cross-Cultural Communications	184
6.5 Assessment of Your Strengths and Areas for Improvement	185
Assessment Based on Attributes Model	185
Assessment Based on Employment Model	185
Assessment Based on Student Involvement Model	186
How to Do a Personal Assessment	186
Personal Development Plan	186
6.6 Developing Your Communication Skills	187
The Importance of Communication Skills in Engineering	187
The Engineering “Discourse”	188
Employers Want More	189
The Engineering Student as Communicator: A Profile	190
Developing a Positive Attitude	190
Planning to Improve Your Communication Skills	191
Conclusion	192
6.7 Leadership and Teamwork	192
Principles of Teamwork	194
Attributes of an Effective Team Leader	194

Characteristics of an Effective Team Member	195
Stages of Team Development	196
6.8 Mental and Physical Wellness	197
Tips for Good Health	197
Balancing Work and Play	197
Managing Stress	198
6.9 Motivating Yourself	200
<i>“No Deposit, No Return”</i>	201
Jesse Jackson <i>“Excel”</i> Message	201
Inspirational and Motivational Quotations	201
Power of Positive Thinking	202
Summary	203
References	204
Problems	206
<b>Chapter 7. Broadening Your Education</b>	<b>211</b>
Introduction	211
7.1 Participation in Student Organizations	211
Engineering Student Organizations	212
Benefits of Participation in Student Organizations	215
Participation in Other Extracurricular Activities	217
7.2 Participation in Engineering Projects	217
Student Design Competitions	217
Technical Paper Contests	220
Design Clinics	221
Undergraduate Research	221
7.3 Pre-Professional Employment	222
Benefits of Pre-Professional Employment	222
Types of Pre-Professional Employment	223
How Do You Measure Up?	225
Preparing Yourself for a Job Search	226
Identifying Employment Opportunities	229
Applying for Positions	232
Following Up on Interviews	234
7.4 Study Abroad	234
Benefits of Study Abroad	235
Can You Do It?	235
Finding a Study Abroad Program	237
7.5 Putting Something Back	238
Providing Feedback	239
Serving as an Ambassador	240
Helping Other Students	240

Summary	241
References	241
Problems	242
<b>Chapter 8. Orientation to Engineering Education</b>	<b>246</b>
Introduction	246
8.1 Organization of Engineering Education	247
Overview of Engineering Education in the U.S.	247
Organization of the Engineering Unit	247
Position of the Engineering Unit in the University	248
8.2 The Role of Community Colleges in Engineering Education	249
Engineering Technology	249
Articulation and Course Selection	250
Advantages of Starting at a Community College	250
Applicability of This Book to Community College Students	251
8.3 The Engineering Education System	252
8.4 Academic Advising	253
Quality of Advising Can Be a Problem	254
Take Personal Responsibility for Getting Proper Advising	254
8.5 Academic Regulations	255
Academic Performance	256
Recognition for Poor Academic Performance	258
Recognition for Good Academic Performance	258
Enrollment Policies	259
Student Rights	261
8.6 Student Conduct and Ethics	262
Academic Dishonesty	264
8.7 Graduate Study in Engineering	267
Benefits of Graduate Study in Engineering	267
M.S. Degree in Engineering	268
Ph.D. Degree in Engineering	268
Full-Time or Part-Time?	268
How Will You Support Yourself?	269
8.8 Engineering Study as Preparation for Other Careers	269
Master of Business Administration (MBA)	269
Law	270
Medicine	271
Summary	272
References	273
Problems	273

<b>Appendices</b>	<b>276</b>
Appendix A – Design Project – “Design Your Process for Becoming a <i>World-Class</i> First-Year Engineering Student”	277
Appendix B – 21 Definitions of Engineering	278
Appendix C – Engineers Among the World’s 200 Wealthiest Individuals	280
Appendix D – Greatest Engineering Achievements of the 20 <sup>th</sup> Century	282
Appendix E – Description of Engineering Disciplines	285
E.1 Electrical Engineering	285
E.2 Mechanical Engineering	287
E.3 Civil Engineering	290
E.4 Computer Engineering	292
E.5 Chemical Engineering	296
E.6 Bioengineering/Biomedical Engineering	297
E.7 Industrial Engineering	298
E.8 Aerospace Engineering	299
E.9 Overview of Other Engineering Disciplines	299
<b>Index</b>	<b>305</b>
